BIOGRAPHY

ORIGINAL ROCK. LIVE AND LOUD.

AXIS Five is an original rock band from Roanoke, Virginia, delivering new rock music with a live, high-energy performance built on more than 16 years on stage together: the perfect blend of music, technology and action that moves a crowd from the first song to the last.

The band has released four albums of original rock: Memory Maker, The Other Side (2015), Earthlings (2018) and Spectacles (2020), with its music available on more than 200 streaming and digital outlets worldwide. AXIS Five has played more than 400 live concerts and shared the stage with national acts including Ted Nugent, Dokken, Black Stone Cherry, Molly Hatchet, Fuel and Saliva.

Written by front man and songwriter David Stanfill with the band, the songs take on political, social and heartfelt subjects with a distinct guitar, vocal and drum driven sound. Concerts mix the most popular songs from the four albums with favorite rock covers that get the whole room singing along.

AXIS Five can be loud. Very loud. For rooms that want it a little quieter, The Softer Side of AXIS Five brings rock ballads from the albums together with classic rock from the '70s through the '90s.
